

RAMAIAH M

Senior Frontend Engineer | React.js · Next.js · TypeScript · SSR · Performance Optimization

ramaiahmariappandev@gmail.com | +91 7358848699 | India | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | Open to Remote & India Roles

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4.7+ years building high-performance, scalable web applications using React.js, Next.js, and TypeScript. Delivered a 25% reduction in production load times, 40% increase in user engagement, and Lighthouse scores of 90+ across enterprise and consumer applications serving 20,000+ users. Deep expertise in SSR/SSG/ISR, reusable design systems, and Core Web Vitals optimization (LCP, CLS, FID). Skilled at leading frontend architecture decisions and shipping production-ready features independently across distributed teams.

KEY ACHIEVEMENTS

- Reduced production page load time by 25% via code splitting, lazy loading, and API optimization — Spritle Software (20K+ users).
- Drove 40% increase in user engagement by leading dashboard and role-based access control module development across 5+ production applications.
- Improved developer velocity by ~30% at Konnectify through a scalable TypeScript component architecture with shared hooks and normalized state.
- Achieved Lighthouse performance scores of 90+ on multiple projects through SSR, image optimization, and layout shift elimination.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router, Pages Router), TypeScript, JavaScript (ES6+), React Hooks, Redux Toolkit, RTK Query, Zustand

Styling & UI: Tailwind CSS, shadcn/ui, Material UI, Framer Motion, Web Components, Accessibility (WCAG 2.1)

Performance: SSR, SSG, ISR, Core Web Vitals (LCP/CLS/FID), Lighthouse Optimization, Code Splitting, Lazy Loading, Memoization, Virtualization, Webpack/Vite

Testing & DX: Jest, React Testing Library, Cypress, Storybook, Git, CI/CD, Docker, Linux

Backend & Infra: Node.js, NestJS, REST APIs, GraphQL, PostgreSQL, Prisma ORM, Redis, Firestore

AI Tools: OpenAI API, Anthropic API, Claude, ChatGPT, Gemini, AI-assisted debugging, automated test generation

PROFESSIONAL EXPERIENCE

Konnectify Pvt Ltd Oct 2023 – Present

Senior Frontend Engineer (Full Stack Focus) · Chennai, India

- Architected frontend of an enterprise iPaaS platform in React.js and Next.js, serving as primary frontend owner across the full product lifecycle.
- Designed a reusable TypeScript component architecture with strict prop typing and shared custom hooks, improving developer velocity by ~30% and reducing onboarding friction.
- Built real-time data-intensive dashboards with Redux Toolkit and RTK Query; implemented normalized cache selectors eliminating redundant API calls and cutting re-renders significantly.
- Applied SSR with Next.js on critical pages, achieving TTFB improvements and Lighthouse performance scores of 90+ by resolving layout shift and optimizing image delivery pipelines.
- Optimized Core Web Vitals (LCP, CLS, FID) through dynamic imports and memoization, reducing JavaScript bundle size by 35%.
- Contributed to Node.js REST APIs, PostgreSQL schema design via Prisma ORM, and CI/CD pipeline configuration using GitHub Actions.

Spritle Software Pvt. Ltd Sep 2021 – Sep 2023

Frontend Engineer · Chennai, India

- Built and scaled React.js applications serving 20,000+ active users with Redux state management for complex multi-step user flows.
- Led dashboard and RBAC module development, achieving a 40% increase in user engagement measured over 6 months post-release.
- Reduced page load time by 25% through code splitting, async API batching, and critical rendering path optimization.

- Delivered a library of 30+ reusable Web Components used across 5+ production projects in media and edtech, cutting per-feature UI build time by ~20%.
- Ensured WCAG 2.1 Level AA accessibility compliance on all UI components; maintained 80%+ unit test coverage using Jest and React Testing Library.
- Collaborated with designers and product managers in a 12-person Agile team, consistently meeting sprint commitments across 5 production launches.

NOTABLE PROJECTS

AI Content Generator | Next.js · TypeScript · OpenAI API · Anthropic API · shadcn/ui · Tailwind CSS

- Built a BYOK (Bring Your Own Key) AI content platform with multi-platform publishing, integrating OpenAI and Anthropic APIs for AI-assisted content workflows.
- Implemented SSR for dynamic generation pages achieving sub-2s LCP using skeleton loaders and deferred hydration strategies.
- Created a library of 20+ reusable shadcn/ui components with Storybook documentation, enabling rapid feature iteration.

Enterprise Asset Management System | Next.js 14 · NestJS · PostgreSQL · Prisma · Redis · Docker

- Designed full-stack architecture for asset lifecycle management using Next.js 14 App Router and NestJS, with authentication, RBAC, and asset tracking workflows.
- Integrated Redis caching layer reducing repeated DB query load by 60%; containerized all services using Docker Compose for reproducible deployment.
- Built virtualized dashboards handling 10K+ asset records with smooth 60fps rendering performance.

SEO-Optimized Recycling Business Platform | Next.js · Schema.org · Google Analytics · Tailwind CSS

- Delivered SSR-based website with Schema.org structured data, semantic HTML, and sitemap configuration, achieving Lighthouse SEO score of 98.
- Improved overall Lighthouse performance score from 62 to 91 through image optimization, deferred scripts, and font preloading.

Orthopedic Surgeon Portfolio | Next.js · TypeScript · Framer Motion · Tailwind CSS

- Built responsive portfolio with scroll-triggered animations and page transitions using Framer Motion; achieved LCP under 1.8s via SSR and next/image optimization.
- Executed full PII sanitization and data privacy audit before launch to ensure compliance with data protection requirements.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering 2017 – 2021

Anna University, Tamil Nadu, India · CGPA: 7.3 / 10

OPEN SOURCE & COMMUNITY

- Foss Hack 3.0 — Winner (competitive open source hackathon with national participation).
- Hacktoberfest contributor · Wikimedia Digitization · Mozilla Localization & Common Voice · OpenStreetMap
